EDUCATION

The Harker School

GPA: 4.0/4.0 (UW), 4.53 (W)

Senior, Class of 2027

SAT: 1570/1600

- Relevant Coursework: AP Comp Sci A (w/ Data Structures) [5], ATCS: Neural Nets, ATCS: Compilers, AP Calc BC [5], AP Spanish Lang [5], APUSH [5], AP World [5], AP Micro [5], AP Macro [5].

RESEARCH

Host, Language of Resistance | languageofresistance.org

May 2025 - Present

- Investigating how semantic, rhetorical, and phonological features influence protest effectiveness across cultures. Curating dataset with protest language, training regression and clustering models.
- Creating podcast content with leading scholars, incl. Pulitzer Prize-winning poet.

Independent Researcher | [blog series](#)

October 2025 - Present

A Computational Approach to Measuring Semantic Change in Sanskrit Literature

- Developing NLP pipeline to measure semantic drift using word embeddings on Sanskrit corpora. Performing sandhi splitting, lemmatization, training custom models, and publishing blog posts / paper.

AI Research Intern, UCLA

Summer 2026

Speech Processing and Auditory Perception Lab

- Built physics-based deepfake speech detector using glottal, vocal tract, and room features; at COSMOS.

Linguistics Intern, UC Santa Cruz

Summer 2025

- Conducted novel linguistic research under PhD student in verb-phrase ellipsis in Altaic languages.

EXPERIENCE

Co-Founder, Bay2BayHacks | bay2bayhacks.xyz

June 2025 - Present

- Organized global AI hackathon (550+ participants); secured \$50K+ in sponsorships (cash value) from leading companies including Jane Street and recruited judges from Tesla, Uber, Microsoft.

Officer/Project Lead, HarkerDev

March 2025 - Present

- Built and deployed school parking management app used by 350+ students and faculty members; coordinated with administration to ship a production system from scratch.

NLP Intern, Chauwk | [github portfolio](#)

Summer 2024

- Built a RAG-based platform for 23 low-resource South Asian languages to retrieve gov. schemes and job leads for blue-collar workers, with native-language (audio and text) support via machine translation.

Founder, SportsAI | sportsai.us

July 2023 - Present

- Building AI-powered sports coaching system using computer vision to analyze player performance and provide real-time feedback from video. Leading product + model development and business strategy.
